

Vision Statement

At St Kieran's Catholic School we believe that the quality of relationships between parish, home and school is a source of strength and unity to our community.

We are a Christ-centered Parish School community, which is strongly supported by the Augustinian spirit of friendship and welcome. Our school nurtures the uniqueness of each child through the development of quality teaching and a stimulating learning environment.

In our community Pastoral Care is given priority as a means of developing a distinctive Catholic climate and a strong sense of school community, which echoes our motto ***to learn and to love***.

Therefore our vision for our school is based on:

- The building of a Christ-centered Parish School community.
- The recognition of the Uniqueness of Each Child.
- The development of quality Teaching and Learning.
- The fostering of Pastoral Care
